Product line's Contribution to Sales

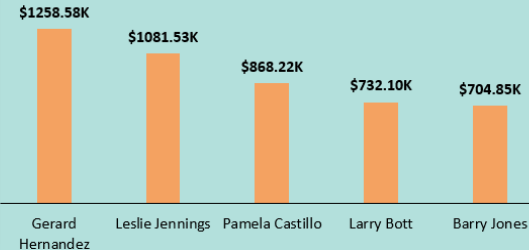

Top 5 Countries by Sales

Top 5 Products by Sales

Top 5 Employees by Sales

Business Problems

- No consolidated revenue or profitability view
- Revenue trends & seasonality invisible to leadership
- No country / product / rep-level performance ranking
- Gross margin data trapped in raw product tables
- No self-service filtering for stakeholders

Dashboard Objectives

- Surface 6 real-time KPIs at a glance
- Show monthly revenue & profit trends
- Rank top countries, products & sales representatives
- Reveal product line sales contribution
- Enable interactive filtering by Country / Line / Period

Technical Pipeline → End-to-End in Excel

1

November Revenue Spike

Revenue peaks sharply in Nov. Jan–Sep remains flat — an untapped mid-year opportunity.

2

Classic Cars = 44% of Sales

Dominant product line but risky concentration. Vintage Cars (20%) and Motorcycles (13%) are growth levers.

3

USA Outpaces All Markets

USA \$3.27M — more than Spain + France combined. Europe is fragmented and underdeveloped.

4

Top 3 Reps Drive Most Revenue

G. Hernandez \$1.26M leads with a 44% gap to 5th. Playbook not yet replicated across the team.

5

Ferrari SKUs Top the Chart

1992 Ferrari 360 Spider (\$276K) & 2001 Ferrari Enzo (\$190K) — iconic brands drive the highest intent.

6

40% Gross Margin Is Stable

Profit trend mirrors revenue — Nov spike is not discount-driven. Pricing integrity is maintained year-round.

Business Problems Solved

Revenue Clarity

Consolidated KPIs replace manual multi-table reporting.

Seasonal Intelligence

Monthly trend charts reveal Q4 peaks for planning.

Geographic Strategy

Country ranking flags USA strength & Europe potential.

Product Decisions

SKU & line rankings guide marketing budget allocation.

Sales Accountability

Rep leaderboard creates transparent benchmarks.

Self-Service Analytics

4 slicers let any stakeholder explore data solo.

Strategic Recommendations

HIGH

Pre-Holiday Campaigns

Launch campaigns in Sep–Oct; use pre-orders to smooth Q4 cash flow.

HIGH

Diversify Product Mix

Grow Vintage Cars & Motorcycles; reduce Classic Cars below 35%.

MEDIUM

Expand in Europe & APAC

Dedicated EU account manager + localised catalogues for AU/NZ.

MEDIUM

Replicate Top Rep Playbook

Share Gerard Hernandez's tactics to close the 44% performance gap.

LOW

Mid-Year Revenue Events

Quarterly drops & loyalty rewards to reduce Q4 dependency.

Revenue by Months

Line chart showing monthly sales; Nov peak visible clearly.

Gross Profit by Months

Mirrors revenue — confirms no discount-driven spikes.

Product Line Contribution

Donut: Classic Cars 44% · Vintage 20% · Motorcycles 13%.

Top 5 Countries

Bar: USA \$3.27M dominates vs Spain \$1.1M & France \$1.0M.

Top 5 Products

SKU chart led by Ferrari 360 Spider \$276K & Enzo \$190K.

Top 5 Employees

G. Hernandez \$1.26M · L. Jennings \$1.08M · P. Castillo \$0.87M.

Conclusion

This project proves Excel is a fully capable BI platform. Combining Power Query (ETL), Power Pivot (relational modelling), DAX (calculated measures) and interactive Pivot Charts delivers production-quality analytics accessible to any stakeholder — no specialist tools required.
